“It Doesn’t Take Much to Make More Than Nothing”

Micro-Enterprise Training - Generating Income:

This is a 2-day course that involves potential business owners, direct support staff, support coordinators, vocational rehab staff, school personnel and other people close to the individual who are interested in starting a micro-enterprise. It is a very interactive class with “hands-on” work in small groups developing the plan for the business. The ideal number of participants includes up to 10 people who are interested in starting their own business, people close to them, and professionals. The total number of participants should not exceed 100 people. Our mission is to help people who are poor: indigenous populations, students and adults with disabilities, and reformed prison populations. The topics covered during the session include:

- Beginning the Journey — The concept that “every-one can produce income
- Why Self-Employment through Micro-Enterprise
- How do you get to “your” enterprise?
- What is Micro-enterprise?
- Fine Tuning the Micro-enterprise — “Once You Have A Concept”
- How to Develop a Responsible Business Plan
- Where do you find the money

Micro-Enterprises System Support:

This one day facilitation guides the organization, county or state through a step-by-step process to analyze the “players” and current business supports in your region. Your collaboration needs are assessed and a plan is developed to work in conjunction with all parties to facilitate successful micro-enterprise development in your area.

Keynote Speaking, Presentations and Consultation Services:

Doreen Rosimos and Darcy Wilson are available on an individual or on a team basis to meet the unique needs of your organization in a dynamic fashion.

Who We Are

Doreen Rosimos combines a passionate commitment to disabled people with an unstoppable flair for business.

As evidence of her skills, she currently owns 10 businesses, including 2 small provider agencies, a consulting business, a designer clothing wholesale

manufacturing business and an import business, a non medical in-home care for the elderly business franchise, Plus she’s started and sold two dozen more. And in her spare time she’s a landlord to many!

Doreen is equally committed to assisting people with disabilities, not least her brother Jack, for whom she advocates. She has helped many individuals - and families with a disabled person, too - to set up their own businesses. Her work has covered over 50 U.S. states and 12 countries! She is recognized across the U.S and Europe as a leading expert, and inspiring presenter, on micro-enterprises. She was also one of the founders of the Center for Self-Determination. She has been profiled in Time Magazine, US News and World Report, Harvard Business Review as well as many newspapers and magazines. She and Darcy are listed as a resource in Chantel Sicile Kira’s book Autism Full Spectrum Disorders Adolescents.

Darcy Wilson is a dynamic woman dedicated to operationalizing the freedom of individuals, through the creation of income.

She is one of the founding members and consultants for the Center for Self-Determination. The driving force behind their collaboration is their belief

in thinking out side the box, and believing that failure is not an option for anyone. Darcy struggled seeing individuals making minimum wage or less. Darcy witnessed the failure of the current system to overcome this discrepancy. Her belief in developing micro enterprises to meet the varying needs of individuals is her underlying motivation. She is working to develop as many income-producing individuals as possible, especially those who are most challenged. Being involved in family businesses for all her life, Darcy has always looked at ways to be creative, inventive and to make income.
